

Why Support the Lake Country Art Gallery?

The Lake Country Art Gallery offers programs specifically for the youth and the seniors of our community.

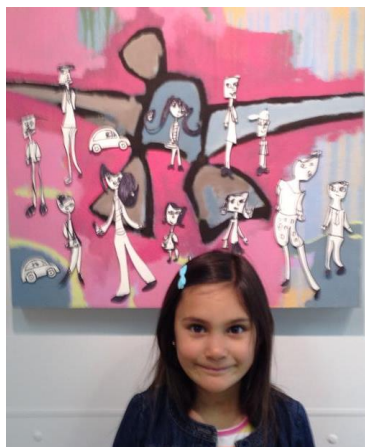

Without the exhibitions, events, workshops, films, art talks, bus tours, Lake Country would be a much duller place.

Lake Country Art Gallery offers a wide range of artworks that are exciting, contemporary, innovative, and perhaps challenging as they expose us to important issues.

In order for any community to be balanced and healthy, it needs to have cultural amenities, along with the roads, sports fields and clean water.

Research indicates that participation in arts experiences contributes to better health and well-being. Stats Canada reports that twice as many citizens in a community participate in or attend arts and cultural events.

The arts make significant contributions to the economic activity of a community.

Ensuring the arts are available to everyone ensures a more creative community.

Lake Country Art Gallery makes our community a better place to live and visit.
